SUMMARY

Enthusiastic and detail-oriented Computer Science graduate with strong skills in Python, JavaScript, and web application development. Experienced in building internal tools, dashboards, and automation systems using Django and React. Passionate about translating business requirements into technical solutions and eager to contribute to a fast-paced, collaborative sales-tech environment.

TECHNICAL SKILLS

- **Programming:** Python (Strong), Java (Basics), JavaScript (Basics), Node.js (Basics), DSA (Basics)
- **Web Development:** HTML, CSS, Django, React.js
- **Database:** MySQL, Basic CRUD operations and query handling
- **Tools:** Git, Github, Vscode, MS Excel
- **Cloud & AI:** AWS (Basics), SDLC
- **Networking:** IP addressing, Subnetting, DHCP, DNS, Routing & Switching

SOFT SKILLS

Communication skills, Time management, adaptability, quick learner, teamwork, leadership, problem solving, presentation, Documentation

INTERNSHIP EXPERIENCE

Software Developer Intern – BlueRipples Technologies Trivandrum Nov 2025 – Present

- Gaining hands-on experience in real-world software development projects within a professional work environment.
- Actively involved in frontend and backend development tasks, following industry best practices.
- Worked with modern web technologies and frameworks to design, develop, and enhance application features.
- Collaborated with senior developers and team members to understand project requirements and implement solutions.
- Followed SDLC processes, including requirement analysis, development, testing, and deployment support.

Python Django Full Stack Developer – Luminar Technolab (online course) Jul 2025 – Present

- Gained hands-on experience in basic and advanced Python programming.
- Worked with MySQL for database design and management.
- Built responsive web applications and internal dashboards for data visualization and task automation.
- Collaborated with teams to translate functional requirements into efficient backend solutions using Django and MySQL.
- Strengthened problem-solving, debugging, and project development skills through real-time practice.

Data Science Intern – Quest Innovative Solutions Mar 2025

- Trained and evaluated machine learning models for predictive analytics.

- Performed data preprocessing and feature engineering for improved model accuracy.

ERP, SAP & Cloud Computing Intern – Innoval Digital Solutions

May 2023

- Gained practical experience in SAP, ERP integration, and cloud-based business solutions.
- Assisted in automating business processes and improving workflow efficiency.

PROJECTS

Anti-Ragging Solution Website – ReactJS, Node.js, MySQL

- Developed an AI-driven tool with emotion detection and feedback analysis.
- Demonstrated ability to automate evaluation processes and create user-focused tech solutions.

Virtual Interview Preparation Coach – Python, OpenCV, BERT

- Developed an AI-driven interview preparation tool with emotion detection and sentiment analysis.
- Integrated real-time feedback to enhance user performance and confidence.

EDUCATION

2021 – 2025	Bachelor's Degree, TKM Institute of Technology, Karuvellil, Kollam	CGPA: 7.95
2020 – 2021	Class 12th, State Board, TKM HSS Karikode, Kollam	96.5%
2019 – 2020	Class 10th, State Board, TKM HSS Karikode, Kollam	98%

CERTIFICATIONS

- Fundamentals of Artificial Intelligence – NPTEL (IIT Guwahati)
- Introduction to Machine Learning – NPTEL (IIT Kharagpur)
- Cloud SAP Internship – 1 Month (May 2023)
- Full Stack Web Development Workshop – TATHVA'22, NIT Calicut

ACHIEVEMENTS & ACTIVITIES

- Consistently ranked top performer in academic and internship projects.
- Actively participated in coding challenges and hackathons.
- Minor Specialization – Biomedical Engineering
